

Baraboo Hills Photo Adventure

Full day bus trip to one of Wisconsin's most dramatic locations

Designed for the Travel, Nature, and Landscape Photographer

This guided trip will explore and offer opportunities to photograph waterfalls, canyons and rock formations, Paleolithic rock shelters, the historic Our Lady of Loretto church and cemetery, and plants that are unique to the area.

The trip is designed for photographers of all skills levels and will include an orientation and review of photographic skills including the use of filters, capturing water motion, and achieving dramatic plant and landscape images. Instructors, including photographer Michael Cooney and Camera Corner's Ric Szczepkowski, will be available throughout the trip to offer one-on-one assistance. Tamron's Mike Pazandak will also be available to loan out Tamron lenses for compatible cameras. A photo ID will be required to borrow a lens.

A professional model and yoga instructor will join us to provide additional photo opportunities and will be available to work with students individually as time permits.

Cost: \$125
Includes coach bus ride and lunch
(Green Bay & Oshkosh pickup locations)

Thursday, June 9th
7:00am - 7:00pm
(see back for itinerary)

Advance Zoom class orientation
and skills briefing will be available

Please note: A quality tripod will be required to do water motion photography at the waterfalls and streams. Each location will require walking on both established trails and, at the student's discretion, off trail. This trip is not suitable for individuals with mobility restrictions.
